Class: XI

Section: Commerce

FOR THE PARENTS

Summer Vacations are here. A few vital suggestions are listed below to make the vacations more exciting and fruitful than ever before:

- ★ Keep at least half an hour a day for sharing experiences with your child.
- ★ Encourage your child to speak in English. Fix one hour in a day when you communicate with your child only in English.
- ★ Tell your child different stories regularly and encourage him to describe what he/she would do in a similar situation. Here are few suggested titles which you can read with your child.
 - a. Hare and the Tortoise
 - b. Emperor's New Clothes
 - c. Thumbelina
- ★ Let your child colour, draw, paint, play with water and sand etc.
- ★ Restrict his or her television watching, confining it to interesting children's programs, cartoon films, Discovery channel etc.
- ★ To improve the formation of letters, make your child write a page everyday.
- ★ Develop self-help skills: Let your child dress and feed on his/her own.
- ★ Make him understand the importance of cleaning his room and putting away toys and belongings after use.
- ★ Take your child out for picnics and to other places of his/ her interest. Ask him/her to make a note of all the places he/ she visits and the things he/she sees so that he/she is able to discuss his/her experience in class after the vacation

Have a nice time!

Q.4 Reading Comprehension

Read the following passage carefully and prepare notes using headings and subheadings. Use proper abbreviations wherever necessary. Give a suitable title to the passage. Write a summary of the passage in about 80 words.

The Importance of Reading Habits

Reading is one of the most useful habits a person can develop. It not only improves language skills but also increases knowledge and creativity. Students who read regularly usually perform better in academics because reading improves vocabulary, comprehension, and critical thinking abilities. Books introduce readers to new ideas, cultures, and experiences that help broaden their understanding of the world.

In today’s digital age, many children spend long hours on mobile phones and television. As a result, the habit of reading books is slowly declining. This can affect concentration levels and reduce imagination. Parents and teachers should encourage children to read storybooks, newspapers, magazines, and informative articles from an early age. Schools can also organize reading competitions, library activities, and storytelling sessions to make reading enjoyable.

Reading also plays an important role in personality development. It helps individuals become better communicators and more confident speakers. Moreover, reading reduces stress and provides relaxation to the mind. A good book can inspire people to achieve their goals and develop positive values such as honesty, kindness, and perseverance.

Therefore, developing a regular reading habit is essential for students as well as adults. Even reading for thirty minutes daily can bring significant improvement in knowledge, language, and thinking abilities.
